US Presidential Papers Concerning Saudi Arabia 1941-1962

1997-03-31

state correspondence between us presidents roosevelt truman eisenhower and kennedy and king abdul aziz of saudi arabia 1941 1963

U.S. Presidential Papers Concerning Saudi Arabia, 1941-1962

1997

first published in 1981 the objective of this study is to reconstruct the difficulty faced by american and british policy makers in determining the capabilities and intentions of their two main wartime allies regarding the middle east specifically it seeks to explore the role of great power relations in the middle east in the breakdown of the wartime alliance and in the origins of the cold war

The Great Powers in the Middle East 1941-1947

2013-11-05

this thesis offers a fresh interpretation of anglo american relations in the kingdom of saudi arabia during the period 1941 to 1945 historians of anglo american relations have characterized the bilateral relationship as one of rivalry and polarization while examples of underlying national competition can be identified wherever the wartime alliance operated whether on the battlefield or at the conference table the commonalities which united the allies should however be given equal weight my thesis departs from the traditional historiographical perspective arguing that when closely examined the allies were very aware of the strategic reciprocal benefits that would emanate from integrating their policies in saudi arabia first and foremost britain and the united states relations in saudi arabia were shaped by the fact that the two countries were allies working side by side in the global struggle that was the second world war in this wartime context the strategic influence of saudi arabia has tended to be overlooked the kingdom s influence resided in its geographic location its religious centrality within islam and most importantly its rare political status as a sovereign arab state these attributes served as a unifying force for british and american wartime interests encouraging the two allies to strive for an anglo american partnership in saudi arabia that was built on the concept of strategic interdependence while collaboration between britain and the united states ebbed and flowed it is a testament to their continued pursuit of cooperation that the activities of the wartime alliance in saudi arabia between 1941 and 1945 were envisaged by policymakers as a template for achieving greater anglo american accord throughout the middle east during and beyond the second world war

Anglo-American Relations in Saudi Arabia, 1941-1945

2012

the story of anglo american relations in saudi arabia during the second world war has generally been viewed as one of discord and hegemonic rivalry a perspective reinforced by a tendency to consider britain s decline and the ascent of us power as inevitable in this engaging and timely study matthew hinds calls into question such assumptions and reveals a relationship that though hard nosed functioned through interdependence and strategic parity drawing upon an array of archives from

both sides of the atlantic hinds traces the flow of key events and policies as well as the leading figures who shaped events to show why how and to what extent the allies and saudi arabia became mixed up together in the words of winston churchill perhaps most fundamentally britain and the united states were enthralled by the promise of saudi arabia serving as an auxiliary to allied strategy obtaining king ibn saud s tacit support or more specifically his benevolent neutrality meant having vital access not only to the country s prospective oil reserves but to its prized geographic location its centrality within islam and as international politics increasingly followed an anti colonial path to its credentials as a sovereign and independent arab state given what was at stake london and washington saw their engagement in saudi arabia as seminal a genuine blueprint for how to forge a lasting special relationship throughout the middle east hinds bold new interpretation is a vital work that enlarges our understanding of the anglo american wartime alliance

A Journey of an Italian Diplomat Across Saudi Arabia in 1941

2003

at its founding in 1932 the kingdom of saudi arabia was characterized by tribal warfare political instability chronic financial shortages and economic crises as a desert chieftain abd al aziz ibn saud the ruler and king until 1953 had the skills the cunning and the power to control the tribes and bring peace to this realm but financial and economic matters were not his forte and these he left mostly to a single individual abdullah al sulayman al hamdan he was entrusted with nearly all of the country s early financial dealings and administrative development the ministry of finance which he headed from its inception served as nearly the sole government agency dealing with a wide variety of matters many of which had only a peripheral connection to finance or the economy this book examines the role of the ministry of finance and its minister abdullah al sulayman in holding the country together financially and administratively until the promise of substantial oil income was realized a few years after the end of world war ii it will be essential reading for anyone interested in gulf history and the economic history of the middle east

The US, the UK and Saudi Arabia in World War II

2016-02-17

the story of anglo american relations in saudi arabia during the second world war has generally been viewed as one of discord and hegemonic rivalry a perspective reinforced by a tendency to consider britain s decline and the ascent of us power as inevitable in this engaging and timely study matthew hinds calls into question such assumptions and reveals a relationship that though hard nosed functioned through interdependence and strategic parity drawing upon an array of archives from both sides of the atlantic hinds traces the flow of key events and policies as well as the leading figures who shaped events to show why how and to what extent the allies and saudi arabia became mixed up together in the words of winston churchill perhaps most fundamentally britain and the united states were enthralled by the promise of saudi arabia serving as an auxiliary to allied strategy obtaining king ibn saud s tacit support or more specifically his benevolent neutrality meant having vital access not only to the country s prospective oil reserves but to its prized geographic location its centrality within islam and as international politics increasingly followed an anti colonial path to its credentials as a sovereign and independent arab state given what was at stake london and washington saw their engagement in saudi arabia as seminal a genuine blueprint for how to forge a lasting special relationship throughout the middle east hinds bold new interpretation is a vital work that enlarges our understanding of the anglo american wartime alliance

The Arab League: Arab unity proposals, 1941-1943

1995

unexceptional america s empire in the persian gulf 1941 2007 examines u s policy vis vis the persian gulf since the second world war it asserts that the american experience in this strategic yet volatile region known for its plentiful oil and gas can be best understood as an unexceptional imperial endeavor similar in kind to that of the british ottoman and other empires in previous centuries since 1941 the u s empire in the gulf has achieved successes such as operation desert storm and the invasion of iraq setbacks have included the iranian revolution and the ongoing occupation of iraq given these and many other events which this book spotlights america s gulf empire has undergone repeated expansion and contraction a typical imperial pattern the result has been a cycle of waxing and waning u s influence in a critical region of the world until its occupation of iraq the united states practiced informal empire in the gulf rather than colonialism currently however the formal empire established by the united states in iraq jeopardizes the overall american position in the gulf which seemed unassailable in early 2003

Political Diaries of the Arab World: Periodic despatches and annual reviews, 1941-1965

1990

part 41 focuses on navy fuel purchase contracts for saudi arabian oil and businesses use of institutional advertising for tax exemptions during and after the war

Saudi Arabia Under Ibn Saud

2018-06-21

saudi arabia is a wealthy and powerful country which wields influence in the west and across the islamic world yet it remains a closed society its history in the twentieth century is dominated by the story of state formation after the collapse of the ottoman empire ibn sa ud fought a long campaign to bring together a disparate people from across the arabian peninsula in 1932 the kingdom of saudi arabia was born madawi al rasheed traces its extraordinary history from the age of emirates in the nineteenth century through the 1990 gulf war to the present day she fuses chronology with analysis personal experience with oral histories and draws on local and foreign documents to illuminate the social and cultural life of the saudis this is a rich and rewarding book which will be invaluable to students and to all those trying to understand the enigma of saudi arabia

The US, the UK and Saudi Arabia in World War II

1992

in this world war ii military history rommel s army is a day from cairo a week from tel aviv and the ss is ready for action espionage brought the nazis this far but espionage can stop them if washington wakes up to the danger as world war ii raged in north africa general erwin rommel was guided by an uncanny sense of his enemies plans and weaknesses in the summer of 1942 he led his axis army swiftly and terrifyingly toward alexandria with the goal of overrunning the entire middle east each step was informed by detailed updates on british positions the nazis somehow had a source for the allies greatest secrets yet the axis powers were not the only ones with intelligence brilliant allied cryptographers worked relentlessly at bletchley park breaking down the extraordinarily complex nazi code enigma from

decoded german messages they discovered that the enemy had a wealth of inside information on the brink of disaster a fevered and high stakes search for the source began war of shadows is the cinematic story of the race for information in the north african theater of world war ii set against intrigues that spanned the middle east years in the making this book is a feat of historical research and storytelling and a rethinking of the popular narrative of the war it portrays the conflict not as an inevitable clash of heroes and villains but a spiraling series of failures accidents and desperate triumphs that decided the fate of the middle east and quite possibly the outcome of the war
