The Global Business Environment 2020-02-19 a textbook with innovative real world macroeconomic
analyses of timely policy issues with case studies and examples from more than fifty countries
this timely and refreshingly real world focused textbook examines some of the world's most
critical policy issues through a macroeconomics lens after presenting analytical foundations
modeling tools and theoretical perspectives economics of global business goes a step further
than most other texts with a practical look at the local and multinational tradeoffs facing
economic policymakers in more than fifty countries topics range from income equality and the
financial crisis to gdp inflation and unemployment and notably one of the first macroeconomic
examinations of climate change written by a globetrotting economist who teaches and consults
on three continents economics of global business aims not for definitive answers but rather to
provide a better understanding of the context dependent rationales constraints and
consequences of economic policy decisions the book covers long run and short run growth with
examples from the united states china the european union south korea japan latin america
africa australia and vietnam financial crises and central banks monetary and fiscal policies
government budgets currency regimes climate change and macroeconomics income inequality and
globalization all chapters rely on recent and historical examples of economic policy in action
the book is particularly suitable for use as an introduction to macroeconomics for business
students
