the fifth awesome tale in erikson s epic malazan book of the fallen fantasy sequence after decades of warfare the tribes of the tiste edur have at last united under the rule of the warlock king but peace has been exacted at a terrible price a pact made with a hidden power whose motives are at best suspect at worst deadly to the south the expansionist kingdom of lether has devoured all of its less civilised neighbours with rapacious hunger all save one the tiste edur but lether is approaching a long prophesied renaissance from kingdom and lost colony to empire reborn and has fixed its gaze on the rich lands of the tiste edur it seems inevitable that the tribes will surrender either to the suffocating weight of gold or to slaughter at the edge of a sword or so destiny has decreed a pivotal treaty between the two sides nears but unknown ancient forces are awakening for the impending struggle between these two peoples is but a pale reflection of an altogether more profound primal battle a confrontation with the still raw wound of betrayal and the craving for vengeance at its heart war and confrontation magic and myth collide in this the stunning fifth chapter in steven erikson s magnificent malazan book of the fallen sequence hailed as an epic of the imagination and a fantasy classic in the making

the night or the possibility of christ returning begins when the night of the seven year tribulation begins to deny
 this is to deny the earlier watches of the night mark 13 33 37 and the night itself the day of the lord in this vein
 the day of the lord is pictured as nighttime 1 thess 5 2 that is before it dawns 2 pet 1 19 if the chapter division
 between 1 thessalonians 4 5 is taken out which doesn t exist in the original manuscripts we find that it is not a
 pre night rapture that we are to be ready for but a coming of the lord as a thief in the night wherein we are
 commanded to watch 1 thess 5 6 8 and keep our garments rev 16 15 ironically the seven year tribulation and the
 day of the lord both begin with birth pangs matt 24 8 1 thess 5 3 they are one in the same now christians are
 told to earnestly expect the day of the lord in 2 pet 3 12 the word hastening is really to earnestly expect in the
 greek in suit since christians are still here once the day begins the night christ also comes as a thief in the night
 in rev 16 15 we are told to provoke one another to love and good works even more so as we see the day
 approaching heb 10 24 25 moreover it is impossible for the literal salvation to take place before the day of jesus
 christ 1 cor 5 5 philip 1 6 10 2 thess 2 2 3 being before the day of our redemption eph 4 30 the pre-trib rapture

shows how humans have brought us to the brink and how humanity can find solutions i urge people to read with
humility and the daring to act harpal singh former chair save the children india and former vice chair save the
children international in conversations with people all over the world from government officials and business
leaders to taxi drivers and schoolteachers blair sheppard global leader for strategy and leadership at pwc
discovered they all had surprisingly similar concerns in this prescient and pragmatic book he and his team sum
up these concerns in what they call the adapt framework asymmetry of wealth disruption wrought by the
unexpected and often problematic consequences of technology age disparities stresses caused by very young or
very old populations in developed and emerging countries polarization as a symptom of the breakdown in global
and national consensus and loss of trust in the institutions that underpin and stabilize society these concerns are
in turn precipitating four crises a crisis of prosperity a crisis of technology a crisis of institutional legitimacy and a
crisis of leadership sheppard and his team analyze the complex roots of these crises but they also offer solutions
albeit often seemingly counterintuitive ones for example in an era of globalization we need to place a much
greater emphasis on developing self sustaining local economies and as technology permeates our lives we need
computer scientists and engineers conversant with sociology and psychology and poets who can code the
authors argue persuasively that we have only a decade to make headway on these problems but if we tackle
them now thoughtfully imaginatively creatively and energetically in ten years we could be looking at a dawn
instead of darkness
