that in reading we are almost persuaded that it did happen then we say nothing could be worse than that in their foreword and dedication the authors douglas brown and christopher serpell write this is no fanciful picture it is painted from life with england as the background instead of bohemia or poland or any other country now under the nazi heel it is not intended to cause despondency or alarm but to confirm and justify that resolution with which we are now fighting if such a tale is to have a dedication it can only be to those will not let this happen it is a work of fiction but the authors write so convincingly and have so keenly observed recent events and the men who have helped to fashion them that their narrative reads like a true historical picture of england with hitler and the nazis in control this remarkable book should be widely read not merely as an awful warning but also because it is so movingly and skilfully written education the events it describes are so appallingly life like that i found it difficult to remember that i was only reading a novel if the ministry of information want to attack defeatism they should distribute free copies throughout whitehall and the country houses of england new statesman and nation
