they say keep your friends close and your enemies closer but my enemies might be a little too close for comfort my first semester at shadowguard academy has not gone how i expected half of my classmates think i m cursed with bad luck my mentor and i have a tenuous alliance at best and i recently learned demons are abducting guardians but our leader refuses to tell the rest of our society the truth so yeah it s not going great logan and i have devised a plan to reveal the demons crimes to the rest of the guardians the only problem i have to interact with one of the most powerful and frightening enemies i could ever face belial visits me in my dreams teasing me with snippets of information but never enough to act on and while i hate to admit it the more time i spend in his presence the more i wonder if there s something other than malicious evil behind the original demon s actions and something more behind his infatuation with me continue aspen s story in demon marked the shadowguard academy book 2
