Diritto processuale civile 2017 the aim of each volume of this series guides to information sources is to reduce the time which needs to be spent on patient searching and to recommend the best starting point and sources most likely to yield the desired information the criteria for selection provide a way into a subject to those new to the field and assists in identifying major new or possibly unexplored sources to those who already have some acquaintance with it the series attempts to achieve evaluation through a careful selection of sources and through the comments provided on those sources

Civil Procedure 1983 with cross border successions becoming increasingly common in the context of the european union this timely book offers a systematic practical analysis of how cross border successions should be treated including examination of which courts may establish jurisdiction over succession disputes and which law governs such disputes studying cross border successions in the context of estate planning and in the opening and liquidation of a succession it examines the specificities of the european certificate of succession contextualising it within its interface with the national laws and practice of eu member states

International Encyclopedia of Comparative Law 1966 greater efficiency in civil dispute resolution is very much dependent on organized but fair fact finding under european law however no clear cut categorisation of means of evidence exists as yet and significantly diverging interpretations persist of what is considered evidence in the sense of the foundational council regulation ec no 1206 2001 eer the eer fails to provide comprehensive rules for many other aspects of evidence taking pointing instead to national legislation for solutions as long as evidentiary rules remain different from country to country there is an inherent risk of conflict of laws between different systems in the course of cooperation between courts in cross border matters leading to mistrust amongst judiciary and other participants in the proceedings focusing on national rules and using a comparative method which

takes into consideration legal experiences from all legal circles in the eu this book explains and analyses how the law of evidence works in europe today the authors draw on the vast base of relevant information collected in twenty seven member states by national reporters following the classical enumeration of types of evidence production of documents examination of witnesses expert evidence inspection by the judge and examination of the parties chapters encompass such issues and topics as the following judicial cooperation in cross border cases general principles in evidence taking the right to be heard oral vs written form directness of evidence burden of proof judges case management powers regarding evidence means of evidence extent of influence of traditional principles and evidentiary rules on electronic evidence application of communication technology in cross border proceedings legal costs language inadmissible evidence and instances in which a court can refuse a request for evidence the authors offer well grounded recommendations on requested judge s entitlements direct and convenient communication cost issues revised provisions concerning language obstacles unification of presumptions and much more armed with the wide ranging knowledge presented here practitioners handling civil cases anywhere in europe will derive great practical benefit from this book as a masterful synthesis of how evidence is used in national courts in eu member states and of how that use is changing the book will be greatly valued as a unique resource by legal scholars and academics with featured recommendations it can contribute to the development of mutual trust among the national courts inside the eu as well as trust among policymakers and national courts

Trattato di diritto processuale civile 2012-07-03 the first english translation of a comprehensive legal history of europe from the early middle ages to the twentieth century encompassing both the common aspects and the original developments of different countries as well as legal scholars and professionals it will appeal to those interested in the general history of european civilisation

Commentario del Codice di procedura civile. II - artt. 99-162 1972 determining the burden of proof in tax law cases is usually what contributes most to the case s outcome legal presumptions those inferences that are laid down in the law rather than being the result of the court s reasoning play a critical role in such determinations this very useful book uncovers the details of such presumptions which are shared among european tax law systems thus revealing a remarkably clear path through the course of a tax law case in any member state in the context of eu law referring to both legal theory and relevant case law the author assesses whether and to what extent national legal presumptions may be deemed to be consistent with eu law and when this is not the case under which conditions they may be reconciled the analysis unfolds along such avenues as the following the meaning of the concept of legal presumption as developed by legal theory and authoritative academic literature special considerations regarding presumptions in customs law vat and direct taxation harmonized and unharmonized how tax authorities use presumptions to simplify the assessment of tax and tackle tax avoidance or evasion particularly in cross border situations justifications asserted by the member states in relation to restrictions on fundamental freedoms and standards of compatibility for national legal presumptions with eu law resulting from cjeu case law with reference to national experience using italy and belgium as specific examples the analysis culminates in an

elaboration of criteria for legal presumptions capable of meeting the test of compatibility with eu law as an in depth investigation of possible inconsistencies and conditions for the coexistence of eu and member state tax law this book will be welcomed by both taxation authority officials and taxpayer counsel the understanding it imparts on the actual impact of eu law on the recourse to legal presumptions by national tax legislatures and the protection of european taxpayers is unsurpassed

Diritto processuale civile (Vol. II) 2015-12-29 it has often been assumed that europeans invented and had the exclusive monopoly over courtly and romantic love commonly considered to be the highest form of relations between men and women this view was particularly prevalent between 1770 and the mid twentieth century but was challenged in the 1960s when romantic love came to be seen as a universal sentiment that can be found in all cultures in the world however there remains the historical problem that the europeans used this concept of love as a fundamental part of their self image over a long period traces of it still remain and it became very much caught up in the concept of marriage this book challenges the underlying eurocentrism of this notion while exploring in a more general sense the connection between identity and emotions

Dimensions of Evidence in European Civil Procedure 1956 it has often been assumed that europeans invented and had the exclusive monopoly over courtly and romantic love commonly considered to be the highest form of relations between men and women this view was particularly prevalent between 1770 and the mid twentieth century but was challenged in the 1960s when romantic love came to be seen as a universal sentiment that can be found in all cultures in the world however there remains the historical problem that the europeans used this concept of love as a fundamental part of their self image over a

Istituzioni di diritto processuale civile ... 2017-08-03 central to the book's purpose is the procedural challenge facing arbitrators at each and every stage of the arbitral process when fairness arguments conflict with efficiency concerns and trade offs must be determined some key themes include how can a tribunal be fair and in particular be neutral if parties are so diverse how can arbitration be made efficient and cost effective without undue inroads into fairness and accuracy how does a tribunal do what is best if the parties are choosing a suboptimal process when can or must an arbitrator ignore procedural choices made by the parties the author thoroughly evaluates competing arguments and adds his own practical tips expertly synthesizing and engaging with the conference literature and differing authors views he identifies criteria that offer a harmonized approach to each stage of the arbitral process with particular attention to such aspects of international arbitration as appropriate trade offs between flexibility and certainty the rights duties and powers of arbitrators appointment and challenge of arbitrators responses to guerilla tactics drafting of arbitration agreements including specialty clauses drafting of required commencement notices and response documents set off fast track arbitration and other efficiency options strategic use of preliminary conferences and timetabling online arbitration multi party multi contract class arbitration amicus and third party funders pre arbitral referees and interim relief witness evidence both factual and expert documentary evidence production obligations and challenges to production identifying applicable law and remedies and costs

A History of Law in Europe 2013-12-01 this book is a collection of papers that address a fundamental question what is the role of civil justice and civil procedure in the various national traditions in the contemporary world the book presents striking differences among a range of countries and legal traditions but also points to common trends and open issues it brings together prominent experts professionals and scholars from both civil and common law jurisdictions it represents all main legal traditions ranging from europe germanic and romanic countries scandinavia ex socialist countries and russia to the americas north and south and china mainland and hong kong while addressing the main issue the goals of civil justice the book discusses the most topical concerns regarding the functioning and efficiency of national systems of civil justice these include concerns such as finding the appropriate balance between accurate fact finding and the right to a fair trial within a reasonable time the processing of hard cases and the function of civil justice as a specific public service in the mosaic of contrasts and oppositions special place is devoted to the continuing battle between the individualistic liberal approach and the collectivist paternalistic approach the battle in which seemingly paternalistic tendencies regain momentum in a number of contemporary justice systems

Civil Procedure in Italy 2016-04-24 the subject of declining jurisdiction in private international law is one of enormous practical importance and academic interest it is also a topic where a comparative approach is particularly revealing this book contains the 17 national reports and the

general report on the subject of rules for declining to exercise jurisdiction
 forum non conveniens lis pendens the reports were held in athens delphi in
 august 1994 the list of nations for which a report has been prepared is as
 follows argentina brazil canada quebec finland france germany great britain
 greece israel italy japan the netherlands new zealand sweden switzerland and
 usa this book by bringing together all the reports on declining jurisdiction
 provides a unique insight into this topic and dealing as it does with a key
 aspect of private international law fits very well into the oxford series of
 monographs on private international law

The Italian Legal System 2009-01-01 citizenship of the union and freedom of
 movement of persons sets out to analyse in detail the various provisions of
 community law which confer upon individuals the right to move about reside
 and work in the member states it also examines the procedural safeguards
 which set those fundamental rights apart from any deriving from other
 international bodies or organisations and point up the originality of the
 community system citizenship of the union entails freedom of movement under
 the current treaties and also under the treaty of lisbon in which the unified
 treatment of the rules by contrast with the existing pillars of community and
 european union law might be expected to confer new impetus on the realisation
 of the area of freedom security and justice if there is truly to be such an
 area there must be unified not merely coordinated action judicial cooperation
 must be tightened in favour of the union and more importantly individuals be
 they community citizens or indeed nationals of third countries given the
 increasing trend towards a kind of integration which focuses less on formal
 data such as nationality and more on factors such as residence employment and

social integration the book pays particular attention to this last aspect and its political and legal implications the communitarisation of immigration policy the new title iv of the ec treaty mentioned above and the perspectives opened up by the enlargement to 27 member states and more and by the treaty of lisbon provide the framework for the treatment given in the present work **Cross-border Enforcement of Debts in the European Union, Default Judgments, Summary Judgments and Orders for Payment** 2014-07 beginning with 1953 entries for motion pictures and filmstrips music and phonorecords form separate parts of the library of congress catalogue entries for maps and atlases were issued separately 1953 1955
