in women and men in renaissance venice stanley chojnacki explores the central role played by women in holding venetian patrician society together family relations marriages and dowries were the areas in which women interacted dynamically with men the three parts of the book discuss the involvement of the state in those interactions the social and economic consequences for women and their unexpectedly varied consequences for men of the patriciate the society chojnacki describes is at once socially complex and highly regulated on the one hand women of the venetian nobility like patrician women in other cities were subordinate to their fathers and husbands but unlike their counterparts elsewhere venetian patrician women exercised much control over their own wealth and property and were key players in family strategies thanks to advantageous state regulations regarding dowries and marriage

for the first time in a generation leading scholars of medieval and renaissance Venice join forces to define the current state of the field and to reveal in its rich diversity forays into neglected aspects of Venetian studies reveal new insights into coinage and concubinage the first Jewish ghetto and the fourth crusade and matters from dowry inflation to state spectacle to cheese

Discipline Filosofiche (2018-1)

2013

drawing on new archival research conducted in eight countries and in seven different languages this book uncovers how the Vatican shaped the European international order after both world wars via the novel use of international law public diplomacy and new media through careful attention to the entanglements of religion and politics a twentieth century crusade traces the extraordinary story of how the Vatican moved from the margins to the center of European affairs after world war I

Giambattista Nolli and Rome

1973

this book offers an in depth exploration into the current educational climate and the impact of these policy measures for roma people in seven western and southern european countries and seeks to raise awareness of this forgotten minority and to assess the policies implemented to integrate the roma people into the education system

Minerals in the Economy of Montana

2012-12-06

this is a study of the federazione universitaria cattolica italiana fuci between 1925 and 1943 the organisation of catholic action for the university sector the fuci is highly significant to the study of catholic politics and intellectual ideas as a large proportion of the future christian democrats who ruled the country after world war ii were formed within the ranks of the federation in broader terms this is a contribution to the historiography of fascist italy and of catholic politics and mentalities in europe in the mid twentieth century it sets out to prove the fundamental ideological political social and cultural influences of catholicism on the making of modern italy and how it was inextricably linked to more secular forces in the shaping of the nation and the challenges faced by an emerging mass society furthermore the book explores the influence exercised by catholicism on european attitudes towards modernisation and modernity and how catholicism has often led the way in the search for a religious alternative modernity that could countervail the perceived deleterious effects of the western liberal version of modernity

Modern Research Topics in Aerospace Propulsion

1984

drawing on a half century of scholarship of polish studies of copernicus and cracow university and of copernicus s sources this book offers a comprehensive re evaluation of copernicus s achievement and explains his commitment to the uniform circular motions of celestial bodies and his views about hypotheses

Secondo contributo alla storia degli studi classici

2013-04-18

originally published in 1987 since machiavelli historians and political theorists have sought the sources of the stability that earned for venice the appellation la serenissima the most serene republic in patricians and popolani dennis romano looks to the private lives of early renaissance venetians for an explanation fourteenth century venice escaped the tumultuous upheavals of the other italian city republics romano contends because the patricians and common people of the city did not divide sharply along class or factional lines in their personal associations rather venetians of the era moved in a variety of intersecting social networks that were shaped and influenced by an overriding sense of civic community drawing on the private archives of venice notarial registers collections of testaments and records of estates maintained by the procurators of san marco romano analyzes the primary social bonds in the lives of the city s inhabitants in separate chapters patricians and popolani examines the forms of association in everyday venetian life marriage and family structure artisan workshops and relations among tradesmen the role of the parish clergy and the sacred networks that formed around convents hospitals and confraternities and neighborhood and patron client ties by the beginning of the fifteenth century romano argues all these networks of association had been transformed as a new hierarchical spirit took hold and overwhelmed the older more freewheeling tendencies of venetian society the old sense of community yielded to a new and equally compelling sense of place and la serenissima remained stable

since the mid 1970s men's studies and gender studies has earned its place in scholarship what's often missing from such studies however is the insight that the concept of gender in general and that of masculinity in particular can be understood only in relation to individual societies examined at specific historical and cultural moments an application of this insight medieval masculinities is the first full length collection to explore the issues of men's studies and contemporary theories of gender within the context of the middle ages interdisciplinary and multicultural the essays range from matrimony in medieval italy to bachelorhood in renaissance venice from friars and saints to the male animal in the fables of marie de france from manhood in sir gawain and the green knight beowulf and the roman d'eneas to men as other whether muslim or jew in medieval castilian epic and ballad the authors are especially concerned with cultural manifestations of masculinity that transcend this particular historical period idealized gender roles political and economic factors in structuring social institutions and the impact of masculinist ideology in fostering and maintaining power together these essays constitute an important reassessment of traditional assumptions within medieval studies as well as a major contribution to the evolving study of gender

Gregorianum

1999

the collection reveals how scholars of the 1970s through the 1990s argued the importance of previously unconsidered questions about the shape of medieval familial experience and how their mutual information and criticism has refined and added to this investigation in the intervening period

the concept of university language centres has changed in recent decades initially conceived as laboratories for practical and autonomous language learning they are now considered as places with more specific and complex functions in language teaching and learning university language centres now constitute networks for exchanging knowledge and know how in order to respond to ever changing multilingual and multicultural contexts at the same time the availability and acquisition of new technologies is contributing to the creation of new tools for the provision of appropriate services and training this collection covers a wide range of topics related to the activities experiences and applied research carried out in italian university language centres it provides further evidence of the important role university language centres play in promoting language expertise developing tools and adopting digital resources and providing support and training for language teaching technology creativity methodologies and plurilingualism are key topics in the book as they constitute the essential ingredients for effective and successful language teaching and learning the volume s thirty three chapters provide multi perspective approaches showing how the real contexts of current language education need the integration of theoretical backgrounds with the best practices resulting from practical experience

Metalinguistic Exercises as Classroom Activities

2019

the first two chapters of this book isolate and describe the literary phenomenon of the sophoclean tragic hero in all but one of the extant sophoclean dramas a heroic figure who is compounded of the same literary elements faced a situation which is essentially the same the demonstration of this recurrent pattern is made not through character analysis but through a close examination of the language employed by both the hero and those with whom he contends the two chapters attempt to present what might with a slight exaggeration be called the formula of sophoclean tragedy a great artist may repeat a structural pattern but he never really repeats himself in the remaining four chapters a close analysis of three plays the antigone philoctetes and oedipus at colonus emphasizes the individuality and variety of the living figures sophocles created on the same basic armature this approach to sophoclean drama is as in the author s previous work on the subject both historical and critical the universal and therefore contemporary appeal of the plays is to be found not by slighting or dismissing their historical context but by an attempt to understand it all in its complexity the play needs to be seen as what it was to be understood as what it is
